

AVOID DOWNED POWER LINES

IF YOU SEE A DOWNED POWER LINE, MOVE AWAY FROM IT.

Keep a distance of 35 feet, as the ground around downed power lines may be energized.

ADDITIONAL TIPS:

Don't touch anything touching downed power lines.

Assume ALL downed power lines are live. They don't have to be arcing, sparking or humming; they can be as quiet as they usually are.

If you see someone in direct or indirect contact with a downed line, DO NOT touch him or her. You could become energized as well. Call 911 for assistance.

NEVER attempt to move a downed power line or anything else in contact with it, even with an object such as a broom or a tree branch. Non-conductive materials like wood or cloth can conduct electricity if even slightly wet.

Don't step in water near downed lines.

Never drive over a downed power line.

OPERATION ROUND UP

SIGN UP

Those who receive their electric service from Hendricks Power can "round up" their monthly bill to the nearest dollar.

ROUND UP

Donations from you and other cooperative consumers are collected and placed in a trust.

COMMUNITY IMPACT

Because of electric cooperative consumers' generous donations, organizations throughout Indiana are able to make necessary improvements to benefit those in their communities.

A FEW CENTS CAN MAKE A BIG

IMPACT
