

WHAT DOES A LINEWORKER DO?

Lineworkers climb poles to service power lines in areas inaccessible by trucks, stand in an elevated bucket to assess and repair overhead lines, install poles, overhead lines, and other equipment, work on energized and de-energized lines, and install and service underground lines.

SAFETY FIRST

Lineworkers must commit to safety above all else for the benefit of those they serve (you!), fellow crew members and themselves. They spend thousands of hours in safety trainings each year and must learn how to apply numerous safety regulations.

THEY ARE SPECIALLY TRAINED TO

On any given day or night, in all kinds of weather conditions, lineworkers install and maintain overhead and underground electrical systems. We entrust our lineworkers with your safety, so they hold a very important job. We also rely on their expertise to power our world.

LINEWORKERS GO ABOVE AND BEYOND

CELEBRATE

the Power Behind Your Power.
