

BE SAFE AROUND ELECTRICITY WHEN MOVING FARM EQUIPMENT

AS HARVEST SEASON RAMPS UP IN INDIANA, FARMERS AND THEIR CREWS ARE BUSY MOVING EQUIPMENT TO AND FROM THE FIELDS. THIS INCREASED ACTIVITY, HOWEVER, RAISES THE RISK OF ACCIDENTS, ESPECIALLY INVOLVING ELECTRICITY.

FOLLOW THESE SAFETY GUIDELINES:

Never try to raise power lines to allow passage of tall equipment. Even non-metallic objects like wood poles or branches can conduct electricity.

Be cautious around power poles. Striking a pole can cause it to break and drop live wires onto your equipment.

Lower equipment properly. Ensure that equipment like grain augers and other portable equipment are fully lowered before transporting.

AWARDS

APPLICATIONS ARE
DUE FRIDAY, OCT 4

HENDRICKS POWER
Cooperative

TELL US YOUR STORY AND YOU
COULD BE A WINNER.

APPLY NOW!

Up to five qualified candidates will each receive \$500 and be featured in an upcoming issue of the News & Views newsletter, among other highlights.

Interested? Simply complete the online application. When doing so, provide examples of and information about your community service activities and share any relevant photos if available. Be sure to list references for additional information.

Applicant's parent(s) guardian(s) must be members of an Indiana electric cooperative to apply for the awards.

Parents, please visit hendrickspower.com/youth-power-hope-award to apply and learn more.
