

** This graphic illustrates how the costs of critical components have increased significantly at HPC from 2020-2025.*

MAINTAINING A SAFE, RELIABLE ELECTRIC SYSTEM

Like many other industries, Hendricks Power feels the pressure of rising costs for essential materials.

Every day we work to manage expenses and maintain the reliable service you depend on.

RELIABILITY

Hendricks Power is planning for the future through proactive maintenance, smart technology investments, and national advocacy efforts as a commitment to our members.

AFFORDABILITY

Prices for critical infrastructure components like poles, transformers, and wire have increased significantly, placing added pressure on maintaining and expanding the electric grid.

HPC is committed to providing our members with reliable and affordable energy while planning for tomorrow.

Cooperative

HENDRICKS POWER COMMITMENT TO COMMUNITY SCHOLARSHIPS

HENDRICKS POWER CONTINUOUSLY LOOKS FOR WAYS TO SUPPORT OUR COMMUNITY.

That's why we award scholarships to graduating seniors each year to assist our young members in their pursuit of higher education.

HOW TO APPLY FOR A SCHOLARSHIP

Scan the QR code or visit hendrickspower.com/scholarships to download an application and learn more. **Submit your application by March 6, 2026.**
