LEARN HOW TO CONTROL YOUR ENERGY COSTS

Program your thermostat to maximize energy savings.

Setting your thermostat even one degree lower when heating or one degree higher when cooling can reduce energy use by up to 5 percent.

Wash only full loads of laundry and use cold water.

Using warm water instead of hot can cut a load's energy use in half.

Substitute LEDs for conventional light bulbs.

Lighting can amount to up to 12 percent of monthly energy use. LED bulbs can cut lighting costs by 75 percent.

Air-dry dishes.

This step can cut your dishwasher's energy use by up to 50 percent.

Unplug appliances and electronics when not in use.

When powered on, game consoles, televisions, and similar electronics are responsible for up to 12 percent of energy use.
