

Treat driving like a job. You have one job to do: getting from one place to another safely. **Everything else can wait.**

Utility crews who share the road as they work ask drivers to do their part. Most states require drivers to **follow these steps** when approaching anyone on the side of the road:

- 1) **Change lanes** if possible.
- 2) If that's not possible, **you must slow down.**
- 3) If your lane is blocked and you can't move over, **stop!**
- 4) Then **proceed with caution.**

ZONE IN
ON SAFETY

Nationally, there are 70 work zone crashes resulting in injuries each day; 12 work zone crashes result in fatalities each week.

For their sake – and yours – please slow down and focus in work zones.
